

Chew Tze Han was a student of Greendale Secondary School from January 2016 to November 2019, where he completed his secondary school education.

Tze Han is a considerate student who is sensitive to the feelings of others. Keenly aware of his strengths and weaknesses, Tze Han knows how to build on his personal strengths to achieve the best outcome in the things that he does. He is able to maintain self-control even in difficult situations and it is heartening to see Tze Han continue to persevere even in spite of setbacks. Despite his usually quiet demeanor, Tze Han strives to contribute and value-add to discussions, displaying his ability to comprehend complex issues and growth as a more confident individual.

A responsible and respectful student, Tze Han is an independent learner who takes ownership of his learning. His work submission is always prompt and does not require much supervision in completing his work. Tze Han takes a particular interest in the sciences, and thus led him to participate in the Science Explorer Programme at United World College of South-East Asia in 2016. In the same year, he also participated in the Science ICAS and his efforts helped him to obtain the 1st individual placing.

Throughout his four years in Greendale, Tze Han was an active member of the Robotics Club. His kind-hearted nature led him to be appointed as the Welfare Head in the Robotics Club. Tze Han's talent for Robotics and persevering nature is evident from his representation of the school in multiple competitions. Tze Han participated in the Toy Design Competition in 2016 and 2018, where he obtained the Commendation Award, the World Robot Games Singapore in 2017, as well the Future Transportation Challenge in 2018. Of these, Tze Han managed to clinch the Gold Award at the World Robotics Games Singapore. This gave Tze Han the opportunity to attend the International World Robotics Games to gain valuable experiences in competing on an international arena. Tze Han's dedication to Robotics allowed him to gain valuable skills through his time in Robotics and he is now capable of drawing on 3D computer aided design programs.

Tze Han was also involved in various Values-in-Action projects in order to give back to the society and contribute to the less privileged. He was involved in various fundraising events such as the school's 10th Anniversary fundraising carnival in 2016, as well as the Social Enterprise Bazaar in 2018 where he helped to raise funds for the Handicaps Welfare Association. Tze Han also took part in the Thank-Your-Neighbour note writing event held at Oasis Terraces that was part of the HDB Community Week 2019 aimed at promoting integration among neighbours in the Punggol community. Because of Tze Han's varied contributions to both the

Greendale Secondary School

school as well as the community, he was awarded the National Youth Achievement Award - Bronze Medal in 2019.

Tze Han has shown himself to be an innovative student who is resilient in handling setbacks. His growth throughout the years in Greendale Secondary School is commendable, and I am sure he will continue to develop to become a valuable asset of whichever organisation that he will be a part of in the future.
